**IMPORTANT TO THE PUBLIC!**
THE following advertisement was published in May, 1849, in the Boston Daily Times, and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the Woodworth Patent, shortly after I had advertised my PATENT STATIONARY CUTTER, PLANING, TONGUEING AND GROOVING MACHINE, throughout the United States.
**PLANING MACHINES.**
I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham in the year 1791. A like machine was patented in this country by one Hughes some sixteen years ago, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experiment upon these machines not one is of any value for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 15 1849 Philadelphia.
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August 1848 and no machine before this could do so much work and do it as well as mine. In reply to the above advertisement and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane tongue and groove with less power, as much lumber in the same time and do it as well or better than TWO of the "Woodworth" machines. The trial to be had at my Steam Mill Border St. East Boston Mass., or at such other place as may be convenient for such a trial.
JOSEPH P. WOODBURY.

**SODA SALERATUS**
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor, and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found John Dwight & Co's
**Washing & Cleansing Powders,**
which will be found on trial, a very super or article saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works, leaving the iron perfectly dry and not liable to rust.

**Wines, Liquors & Cigars,**
Purchased by himself in the City of New York, within the last month FOR CASH at prices from 25 to 33 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands, on the contrary, I saw all my goods sealed for shipping and turned out of the CUSTOM HOUSE, therefore I can say with confidence, that my Liquors are PURE.
I have marked my Goods very low, and have therefore adopted the

## THE NEW CHARTER ADOPTED.

The New Charter, which was submitted to the People of our City yesterday, received the sanction of a very decisive majority of the electors — two to one. The Contest, in one or two of the Wards was very spirited, and the aggregate vote polled is a heavy one for a special election. We subjoin the returns from the different Wards:

| | | For | Against |
|---|---|---|---|
| First Ward | | 394 | 19 |
| Second | do | 187 | 13 |
| Third | do | 177 | 22 |
| Fourth | do | 175 | 60 |
| Fifth | do | 180 | 15 |
| Total | | 1113 | 129 |

Majority for the Charter 984

We trust that the Legislature will lose no time in ratifying the action of the People, and giving legal effect to the New Charter.

## From Madison.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

Madison, Jan 30 1852

The principal of the Institution for the Blind had the use of the Assembly Chamber last evening for the purpose of exhibiting the progress made by some of the pupils in charge of the State. Three little girls and one boy were present, and the exercises were witnessed and listened to, by nearly all the members of both Houses with great interest. Their readiness in the arithmetical and geographical questions proposed, gave evidence of the thorough training of those who have the care of them and the whole performance showed how much has been done for them, and how much may be done by a continuation of the wise liberality of the State towards these unfortunate children. At the close of the joint committee [illegible] from the and Senate House passed around the hat and took up a liberal collection to defray the expenses of the party.

You will have noticed the miserable demagogism exhibited by the *Democrat* here in abusing Gov Farwell for his so-called "Veto" of the Irish resolutions. It is entirely unworthy of a moment's notice except so far as it affords an opportunity for congratulating the state on the [illegible] the day for the rule of such demagogues [illegible]. When Mr Sholes' resolution declaring that the Governor's objections were well taken, and [illegible] the veto came up [illegible] members [illegible] found to have meanness enough in his composition to rise and oppose it, and it [illegible] and *unanimously*, and so, when Col Botkin's plain straightforward resolution of sympathy [illegible] it also passed unanimously. The truth is that there is more good sense in this Assembly than in all preceding ones together [illegible] all the demagogues have been left [illegible] and among the much improved class of [illegible] who fill seats in this hall, there are many who are in every way good enough to be Whigs and doubtless would be such, but for a fortunate mistake in their early training. The [illegible] is recovering from its long sickness, and we may reasonably hope for a radical cure.

I am requested by Mr Sholes to correct an error into which we have fallen with many other papers in setting him down as the Chairman of the select committee on the petitions for the Maine liquor law. Mr Lawrence is the chairman; he informs me that thus far there are some 2000 petitioners for the [illegible] of such law.

It will have been noticed that a move was made in Senate yesterday to go into the election of Commissioners of Public Works to-morrow. It was disagreed to in that body, as it certainly would have been in Assembly if it had come into it — the large majority of the members do not feel inclined to go into a new election until there has been some examination into the doings of the old Board. Candidates for the offices mentioned are beginning to make their appearance in the lobby and are quite active in urging their claims.

I see that Senator Wright's age is printed in my letter as 21 [illegible] 26 and Mr Wright belongs to a portion on which does not grow younger as the years roll away. He was reported as 25 years old last winter. Not being present when the clerk was [illegible] report was had to last year's roll and the natural inference being that he is 26 years old now. So we [illegible].

The R I [illegible] R R Co charter amendment came up in committee of the whole but as debate was commencing upon it it was thrown over under the rule which provides that bills eliciting debate shall not be entertained on Fridays and Saturdays.

Several motions to print local bills were very properly negatived this morning the House feeling that the business of the session is now much retarded by delays in the public printing and not wishing to make matters worse. Among the bills the printing of which was refused, was that incorporating the Young Men's Association of Milwaukee. It will pass without opposition, however— The refusal to print referred to will cut off a long bill of expense.

The House pushed forward with the bills on the table and accomplished a good deal of work in committee. Two or three of the bills were thrown over by the commencement of debate upon them and we may expect to get on to-morrow with another good day's work under the operation of the rule before mentioned.

The Senate this morning refused to concur in the new Irish exile resolution which passed the House with such unanimity, and put the old and objectionable ones through again, requesting the *Secretary of State* to sign and forward them to the President of the United States for his action upon them. I had a better opinion of the Senate than to suppose that they would get through their body such a movement but so the record says. There are all sorts of tastes in the world: good tastes, sweet tastes, sour tastes and inexcusably bad tastes, and this action of the Senate was taken in accordance with one of them—I will not say which. It will be seen that this body saw fit to pass a vote of censure upon the Governor for "interference" in the matter. We shall hear of this matter again in the House to-morrow I think.

The bill amending the charter of the Rock River [illegible] Rail Road Co came up in the morning in committee, and a long and spirited discussion sprung up on a motion of Mr Cam to strike out the 23d section, which provides for its extension to Willow River. The question was lost in committee, but another amendment by the same gentleman passed limiting the time for the commencement to two years and of completion to [illegible] years. The latter amendment [illegible] statement made by Mr McNaughton in the course of his remarks. He stated that he had been opposed to granting the privilege of extension asked for but had been assured by "a gentleman acting in behalf of the company here, on his honor" that the company did intend to complete the road within [illegible] years. Messrs Lawrence, Barnes, and Hoyt opposed the amendment, and it was supported by [illegible] and Messrs Cate Conger and McNaughton and passed. I think it hardly worth while to notice the sneers at Milwaukee thrown out in the heat of debate. It would have been [illegible] that the amendments proposed had come from some other quarter for the sake of peace and harmony but come whence they would, they were fair and legitimate. I do not believe in the policy or propriety of giving any company, let it be located in Milwaukee, Sheboygan, Racine, Janesville or Chicago, a roving commission to occupy routes with exclusive charters. If such charters are given, the time for commencement and completion should be limited in every case, and preference should be given to direct routes to the lake through our own state.

As I was about closing this letter, I learn that the article in the *Democrat* today, reflecting very severely upon the conduct of Lieut. Governor Burns in relation to the appraisement of lands in La Crosse and Bad Axe counties has led to a personal collision between Mr Burns and the State Printer. I have not been able to learn which whipped, and do not know that the information would benefit any one much. The article charges the grossest corruption, and deserves the severest reprehension and punishment if it is unfounded, and the same should be meted out to the offending party if it is true. But I will [illegible] believe it untrue.

I have barely room to [illegible] under apprehension that the frauds [illegible] management of the school lands [illegible] the Board of Public Works will be [illegible] covered up although a deep [illegible] is being made to accomplish [illegible]. Many inquiries [illegible] proceedings have already been started out and the subjects will be probed to the very bottom.

## MILWAUKEE GAS WORKS.

We are gratified to learn that the Milwaukee Gas Light Company has been duly organized, and nearly $60 000, of stock already subscribed. Wm P Lynde, John Lockwood, James H Rogers, D P Hull and James Kneeland, are the trustees. The whole Capital stock is $150 000.

The Company have purchased a lot on the corner of Jefferson and Menomonee streets upon which they intend to erect the works. They have contracted [illegible] with John Lockwood Esq of Cincinnati on the 7th day of [illegible] for the erection of the works, laying down of pipe and placing the entire establishment in complete working order. Mr Lockwood has already commenced the work, and contracted for the main pipes which are to be manufactured in Pittsburgh and delivered here early in the Spring. The brick and stone are now being delivered on the ground ready to commence the building as soon as the weather will permit. The works are intended to be much larger than and superior in every respect to those of the Chicago or Detroit Gas Works.

The buildings are to be erected under the superintendence of Geo. W. Mygatt Esq who has the plans and specifications already prepared, and are all to be of stone or pressed brick with stone foundations. The main building [illegible] front of 240 feet and will be capable of manufacturing 60 000 cubic feet of gas in twenty-four hours.

There are to be six furnaces or benches with 18 retorts, only two benches with three retorts each will be required for the present population of our city. The gasometer in which the gas is retained for use, will hold 75000 cubic feet.

The contractor is to cross the Milwaukee river with the main pipe at such point and lay down six miles of pipe in such streets as the Company may determine, and furnish and put up 100 meters with connecting pipes, 400 tons of coal and other materials necessary for the manufacturing of eight months supply of gas and complete the works in every respect and light up the city by the first day of October next. The whole contract amounts to $149 000 payable in [illegible] the stock of the Company and the balance after deducting such cash subscriptions as the Company may receive in seven per cent bonds of the Company (convertible into stock at any time [illegible]) or stock optioned with the contractor when the payments are made.

We can congratulate the Company upon the favorable contract they have been enabled to make, and the City upon the prospect of the speedy completion of the works which are so much needed.

FAMILY JARS.—We regret to learn that a collision occurred at Madison, on Friday last between Lt Governor Burns and State Printer Brown, growing out of an article made by the latter, in the *Democrat* of Friday, upon the former. No particulars of the affair have reached us further than the report that the Lt Governor got the best of the bargain. The article which provoked the collision is hereunto subjoined. Of the truth of the charges therein preferred by one democratic State officer against another we know nothing but presume that the investigating committees of the Legislature will look into the matter and let the People know the facts in the case.

*Another Investigation Needed!*—Mr Root reported to the Assembly a few days since, that of the 500 000 acres Government grant to the State and appropriated to the school fund thousands of acres were appraised at prices ranging from 10 to 50 cts an acre; and were entered by persons acquainted with the lands; that a large portion of them are worse than valueless. The State paid Commissioner about $800 for selecting the lands and it appears that said Commissioner after selecting a few choice pieces upon which he took preemption to himself, selected the balance from the land office plats without further examination or trouble, and then received from the State pay for a personal examination of the whole amount. This is one of the most barefaced swindles ever perpetrated. The school fund is made to suffer over $300 000 at the lowest estimate but an individual might pocket the paltry sum of $800. We will not mention the name of the Lieut Governor in connection with this swindle lest it should be set down to the account of personal feeling, but we demand a thorough investigation all round, in relation to the acts of the late Governor, School Commissioners, Secretary and even State Printer, let whose friends may suffer by the exposition.

EXTREME COLD—FRANCONIA AHEAD!—In the general competition a fortnight since among the thermometers all over the country to see which could get down to the lowest notch, Franconia, in New Hampshire beat the field hollow. The *Mercury* there on Friday the 16th January gave out or froze up at *forty degrees below zero*, but the spirit thermometer held on a spell longer making 36 below, equivalent to 43 below in a mercury glass. St Johnsbury in Vermont appears to have been next best; the mercury on the same day marking 37 degrees below zero which was within six degrees of the pleasant temperature at Franconia.

FOND DU LAC PLANK ROAD COMPANY.—The election for Directors of the Milwaukee and Fond du Lac Plank Road Company held yesterday resulted in the choice of the following gentlemen viz: R Hugunin, A Cheney, G Vliet, J. W Pettit, [illegible], J R Thomas, J B Vliet.

The officers of the Company for the ensuing year, chosen by the Directors are: G Vliet President, R P Hugunin Secretary, A Cheney Treasurer.

We hope to see this important avenue of communication completed within the current year.— It cannot fail to be as profitable as an investment, as it will be useful to our city and to the residents on the line of the proposed road.

GOV FARWELL AND THE IRISH EXILES.—The *Commercial* [illegible] the Madison *Democrat* [illegible] upon the Governor for tampering with his objections to the first series of resolutions [illegible] the Irish Exiles, and ascribes his course [illegible] to the object of the resolutions. It would be superfluous to contradict so silly and baseless an intimation [illegible] of the Assembly approving *unanimously* of the Governor's course had not already [illegible].

MAGYAR AND OPERATIVE [illegible].—The Pittsburgh *Post* announces that Governor LOUIS KOSSUTH will in future give preference to all associations of the "FRIENDS OF HUNGARY" whether county, local, private [illegible] workingmen's association and he will receive and answer the addresses before all others.

One dollar subscription [illegible] monthly installments of twenty five cents is sufficient to constitute a member, and 25 members [illegible] to form an association.

WASHINGTON MONUMENT.—The receipts from all sources during the past year in aid of the construction of the Washington Monument, amount to $39,179 and the expenditures during the same period to $36,512, leaving a balance of cash on hand at the commencement of the present year, of $2 637. The shaft has now attained a height of some eighty feet, about one-fifth of the proposed elevation.

POST OFFICE CHANGES.—The Postmaster General has established a new P O at ASHFORD, Fond du Lac Co, F WESTON, P M, has discontinued the one at Oneca Jefferson Co and has changed the name of the P O at Bridgeport, Brown Co, to WRIGHTSTOWN.

NON-INTERVENTION.—The Legislatures of Georgia and Alabama now in session have passed, almost unanimously, resolutions adverse to American intervention in European affairs.

☞ As there were one or two typographical errors in the charges prefered by Mr RYAN against the Supreme Court as published in yesterday's paper we republish them corrected this morning.

*To the Senate of the State of Wisconsin*

I present to the Legislature of this State the following charges against the Supreme Court of this State:

1st—I charge that the Supreme Court has, wilfully and as I believe unanimously, since the passage of Section 21 of Chapter 87 of the Revised Statutes disregarded and disobeyed the provisions of that section, and that the Circuit Judges with the sanction of the Supreme Court have taken part in the decision by the Supreme Court of cases and matters determined by them respectively in the circuit courts [illegible] court without the [illegible] against the letter and policy of the law and to the prejudice of the due administration of justice.

2d—I charge that the Supreme Court has frequently since the passage of section 19 of Chapter 82 of the Revised Statutes disregarded and disobeyed the provisions of that section and has negligently failed and neglected to give its decisions or opinions in writing to be filed [illegible] in such cases to the prejudice of the due administration of justice, the uncertainty of the rules and the inconvenience of [illegible].

3d—I charge that the Supreme Court during its June term 1851 after application had been made thereto for an alternative writ of mandamus and after such alternative writ of mandamus had been duly allowed, issued and returned, gave judgment refusing to grant a peremptory writ of mandamus to compel one of the Circuit Judges to erase from a decretal order made by him in the Circuit Court an alteration and mutilation of such decretal order made by such Circuit Judge without authority of law after such decretal order had been duly signed by such Circuit Judge and after a certified copy thereof had been obtained from such Circuit Court by the party in whose favor such decretal order was made and after the dismissal of the suit in which such decretal order had been made and after the party who had obtained the same had left such circuit court and the county in which it was held without the knowledge or consent of such party and without giving any notice to such party: and that the Supreme Court did afterwards at its December term 1851 mutilate the record of said proceedings for mandamus by ordering and causing to be stricken from the files thereof the original affidavit upon which such alternative writ of mandamus was founded and issued and which was the foundation of the whole proceeding and an essential part of such record to the prejudice and scandal of the due administration of justice.

4th I charge that the Supreme Court did at its December term 1851 refuse adequate time for the hearing of important causes pending therein while the court generally neglected to meet for considerable time after the hours appointed for the meeting thereof in violation of the Constitutional right of suitors to be heard and to the prejudice of the due administration of justice.

5th I charge that the Supreme Court did at its December term 1850 and at its June and December terms 1851 permit [illegible] without authority of law to sit upon the bench of the Court and to take part in the decision of causes therein to the prejudice of the due administration of justice.

I submit these charges to the Legislature as charges which I believe I can establish [illegible] the opportunity be afforded to me. I refrain from making charges for which I cannot thus answer.

I submit that the public interest requires a full examination into the action of the Supreme Court and such constitutional action of the Legislature as [illegible] require.

I submit these charges against the Supreme Court as an organized body of the State Government without implicating or exonerating the individual members of the Court because the acts charged were done by the Court as an organized body and because [illegible] discrimination [illegible] with the Legislature [illegible] with me.

And I request a speedy examination of these charges by the Legislature.

Respectfully submitted
E G RYAN

MERCHANTS MUTUAL INSURANCE COMPANY.—Yesterday being Dividend Day, the officers of the Merchants Mutual Insurance Company entertained their friends customers and stockholders with a very handsome collation at their rooms in Dickerman's Block. The attendance was large and the good things provided by the hosts of the occasion were duly enjoyed. Dr L W Weeks [illegible] and very efficient President [illegible] the honors with his usual [illegible] as he transacts the business of the Company.

An interesting episode occurred in the course of the levee. A large number of our Merchants and business men being gathered together in the Company's room, the occasion was improved to [illegible] the subject of a Daily Line of Steamers, between Buffalo and Lake Michigan during the coming season of navigation. At the request of some of the gentlemen present Judge HUBBELL addressed the meeting upon the importance of this line not only to our city but to the whole State and upon the pressing necessity of early and united action on the subject. His remarks were exceedingly well-timed and warmly responded to [illegible]. It was resolved to call the Board of Trade together as soon as may be to open a correspondence with Col Reed, who stands ready if sufficient encouragement offer to put on a daily line of first class steamers as soon as navigation opens.

THE PRESIDENCY.—The New York *Times* after a fair review of the respective chances of Messrs Fillmore, Webster and Scott for the Whig nomination for the Presidency says:

"Gen SCOTT will have a very strong vote from New York, Pennsylvania and Ohio—with scattering support from New England the West and perhaps the South. This will be a very strong beginning—strong enough probably to induce the other candidates to unite their strength. He will have moreover, a very *fair* chance of carrying two out of those three great States and of not losing any other Whig State. His entire silence upon topics of present agitation—slavery and the Hungarian question—gives him available strength for the nomination and Southern prejudice against him has undergone considerable recent relaxation. He seems to stand the best chance of being the Whig candidate."

HOME AGAIN.—Our fellow citizen Mr N A McClure who left this city for California some three years ago and during the greater part of the intervening period has held the post of U S Consul at Acapulco returned hither yesterday in excellent health and spirits. A large circle of friends gladly welcome him back again.

ORPHAN ASYLUM CONCERT.—The Concert in aid of the Orphan Asylum comes off at Young's New Hall *to-night*. The Programme is very attractive but as it is pretty long we are requested to ask as a favor to the performers that the audience do not insist upon any *encores*. Everbody of course, will go to the Concert, or buy a ticket and send a substitute.

MR BINNEY NOT DEAD.—The Detroit papers of Friday last publish the following despatch from Cincinnati contradicting the rumor of Mr Jas Binney's death:

*By Telegraph from Cincinnati*

To WM ARMSTRONG, DETROIT:

My father is with me and in good health. Contradict the report. JAS PIRNEY

A [illegible] GIFT.—The Board of Directors of the Reading Railroad last week authorized the President to present the Rev John Street of Philadelphia with *one hundred and fifty tons* of coal to be distributed by him to the poor of that city.

THE RUSH TO CALIFORNIA.—The New York *Mirror* of the 22nd ult has the following paragraph:—

The emigration to California promises to be as great and even greater than ever, although the rates of passage have been raised considerably still all the through tickets by both routes have been secured up to 21th Feb next.

☞ Mr Worcester who was committed on Saturday for the part he took in the affray on East Water street gave bail voluntarily the same day in the sum of $2000 and was discharged from confinement.

☞ The New York Daily *Times* has attained a circulation of about 21 000 copies and is but 4 months old. That is going ahead with Railroad speed.

SLAVES IN CALIFORNIA.—On the last trip of the steamer Isabel from Charleston [illegible] twenty young men in Burke and Catawba Counties North Carolina were passengers en route for California. They took with them 20 slaves, in the capacity of servants, with the intention of working them in the gold mines. Several other parties from North Carolina have engaged passage for themselves and their slaves on the next trip of the Isabel.—*Balt Sun*

☞ A two-horse load of White Fish, Mackinaw Trout, and Muscalunge were brought into town yesterday, from the Lakes. The Trout and Muscalunge sold for 8 cents a pound and the white fish for 6 cents.—*Galena Gazette* 29th ult.

## Message from the President, Etc.

Washington Jan 21

IN SENATE.—Business commenced at 12 o'clock when the Chair laid before the Senate a Message from the President communicating the following correspondence between the American Minister at Paris and the State Department relative to recent events in France.

MR RIVES TO MR WEBSTER

*Legation of the United States*
Paris Dec 18 1851

SIR:—The troubles which have broken out in the Departments since the Presidential *coup d'etat* of the 2d instant have it is understood been almost entirely suppressed. Not less than twenty-five Departments have been successively declared in a state of siege and placed under martial law since that event, and the whole number of Departments now in that condition is about thirty out of the eighty-six Departments into which the territory of the Republic is divided. The public tranquility in the city has not been disturbed in the slightest degree since my last despatch. The government [illegible] as a measure of precaution dissolved and disarmed two of the legions of the National Guard here and this morning a Circular of the Minister of the Interior to the Prefects of the Departments is published by which the Prefects are authorized in their discretion to dissolve the National Guard within their respective jurisdictions and to [illegible] citizens in whose hands the possession of arms may not be considered as a guarantee for the preservation of order, and also to fill vacancies among the officers by appointments to be made by the Prefects instead of elections to be made by the National Guard themselves as heretofore practised.

Instructions of the same Minister to the Prefect of the Police of Paris are also published by which that officer is enjoined to take prompt and rigorous measures for the execution of the decrees mentioned in my last despatch, respecting persons placed under the surveillance of the Haute Police, which applies equally to all persons convicted of belonging to or being connected with any secret society. Both of these classes of persons are required to be immediately expelled not only from Paris but from France and it is announced that in connection with these orders that the Government will have ready in fifteen or 20 days five vessels of war capable of transporting to the penitentiary colony of Cayenne more than two thousand persons.

These measures sufficiently mark the unrelenting spirit in which the Government pursues its system of repression. Since the second day of December Presidential decrees have taken the place of laws and the Legislature as well as the administration of the country has been the sole authority of the President. To palliate in some degree this appearance of autocratic government what is called a Commission Consultative consisting as it is definitively constituted of one hundred and eighty eight persons named by the President has been organized under the Vice Presidency of Monsieur Baroche, formerly Minister of Foreign Affairs. This Commission as its name is to be defined by the decree establishing it [illegible] to give its opinion on such projects or decrees in matters of legislation as may be submitted to it by the President and is also to perform in general the functions of the Council of State, as that body was organized previously to the revolution of 1848. It is specially charged to sum up and verify the votes of the people at the polls opened on the 20th and 21st instant for the prolongation and enlargement of the President's powers upon the returns from the Departments.

I send you herewith the decree by which the Consultative commission has been definitively constituted and which contains the list of all the names which compose it embracing one hundred and thirty five persons who were members of the late National Assembly—some twenty [illegible] and several persons who have belonged to former Cabinets of the President, as well as the members of the present and a few names belonging to the judicial magistracy. A former decree promulgated the composition of the Commission not so numerous but yet comprising the names of several distinguished persons who refused to serve upon it some of whom notified their refusal in terms of lofty independence [illegible].

In my last despatch, I mentioned to you that since the late extraordinary events here I had refrained from appearing at the usual weekly receptions of the President, while the rest of the Diplomatic corps with the exception of the representative of Switzerland, had pursued a different course. Since the date of that despatch the representative of Switzerland under instructions from his Government has followed the example of the rest of the Diplomatic corps, and I am now the only foreign diplomatic agent of any grade who has not attended the President's reception since the revolutionary *coup d'etat*, by which the Constitution was overthrown. In pursuing the course I have taken counsel not only of the feelings and sentiments natural to the bosom of an American citizen under such circumstances but also of the higher considerations of public duty which should control the conduct of a public agent. Representing as the United States do, before the world the great cause of free popular and republican institutions, [illegible] person entrusted to act and speak in their name, should go forward with any appearance of indecent haste to salute a dictatorial power which had risen by violence on the ruins of a constituted republican constitution, [illegible]. On the other hand the President having appealed to the nation to ratify his acts and pledged himself in the event of an unfavorable decision to surrender at once the power which he now holds by no claim but that of force, I can have no just cause of complaint in the representative of a foreign power thus proper to await the decision of the only rightful tribunal in questions of interior organization whose judgment has been formally invoked. These are the principles which, in the absence of instructions from my Government, I have assumed as the proper guides of my conduct in a novel and delicate situation rendered the more responsible by the opposite course taken by all the rest of the diplomatic corps. I trust they may meet the approbation of those to whom alone I am accountable. I have the honor to be, with great respect your most obedient servant,

SIR:—

Your despatches have been regularly received up to the 21st of last month. The movement made by the President of France, on the 2d ult created great surprise here as well as with you [illegible] by the boldness and extent of its purpose but also by the secrecy with which preparation for it had been made the suddenness of its execution and the success which appeared to have attended it. It was quite natural that you should be in no haste to appear at the public reception of the President after the overthrow of the written Republican Constitution of France and you sympathize in that respect with the great body of your countrymen. If that overthrow had become necessary its necessity is deeply to be deplored, because however imperfect its structure it was the only great Republican Government in Europe and all Americans wished it success. We feel as the catastrophe which has befallen it may weaken the faith of mankind in the permanency and solidity of popular institutions nevertheless and although our own government is now the only republic ranking among countries of the first class we cling to its principles with increased affection. Its experience has convinced us of its practicability to do good and its power to maintain liberty and order. We know that it has conferred the greatest blessings on the country and raised her to eminence and distinction among the nations and if we are destined to stand the only great Republican Nation, so we shall still stand. Before this reaches you the election will be over and if as it is probable a decided majority of the people should be found to support the President the course of duty for you will become plain.

From President Washington's time down to the present day it has been a principle always acknowledged by the United States, that any nation possesses a right to govern itself according to its own will, to change its institutions at discretion, and to transact its business through whatever agents it may think proper to employ. This cardinal point in our policy has been [illegible] illustrated by recognizing the many forms of political power which have been successively adopted in France in the series of revolutions with which that country has been visited. Throughout all these changes, the Government of the United States has conducted itself in strict conformity to the original principle adopted by Washington and made known to the different agents abroad and to the ministers of the world by Mr Jefferson in his letter to Gov Morris of the 12th March 1793. If the French people have now substantially made another change we have no choice but to acknowledge that also. And as the diplomatic representative of your country in France you will act as your predecessors have acted and conform to what appears to be the national authority. And while we deeply regret the destruction of popular institutions yet our ancient ally has still our good wishes for her prosperity and happiness and we are bound to leave her to the choice of means for the promotion of those ends.

I am, sir respectfully your obedient servant,
(Signed) DAN'L WEBSTER"

PASSAGE TO CALIFORNIA.—Mr Huff Agent for Frink and Walker, returned to this city from Chicago, on Saturday evening and brings intelligence that a telegraphic despatch had just been received there from New York, to the effect that every berth on an out-going California steamer was engaged for a month ahead and that the price of first class cabin passage had been put up to $450. This news will disconcert the calculations of some in this vicinity, who are about leaving for California.—*Dubuque Tribune*

ERIE RAILROAD.—The train which left Dunkirk on Saturday last, reached here yesterday, having been blocked up in snow for about three days before having got fairly out of sight of Lake Erie.—*N Y Tribune*, Thursday, Jan 22

THE LATE MRS MURRAY.—The Rochester *American* contains the following obituary of Mrs Chas A Murray whose death was announced recently:

We briefly announced the death of Mrs Murray, (late Miss Wadsworth) on Monday. She was the youngest daughter of the late James Wadsworth of Geneseo. An elder sister who died in 1831, was the wife of Martin Brimmer of Boston.—There is now surviving of the family of James Wadsworth only the two sons, Jas S and Wm Wadsworth.

Mr Murray is a Scotchman the second son of the late Earl of Dunmore, and grandson of Lord Dunmore who was Governor of Virginia on the breaking out of the revolution. He is now the Diplomatic representative of the British Government at Cairo in Egypt. He visited this country in 1834 upon a mixed errand of business and pleasure, organized at St Louis a corps of adventurers and with them visited one of the far western Indian nations—the Pawnees—spending most of the summer with them, joining them in their annual sports and accompanying them in their Buffalo hunts.

He is the author of the book of "Travels in North America" and a popular tale of fact and fiction—"The Prairie Bird." James Wadsworth made an acquaintance with the family during a temporary residence in Europe in 1795 '6 and '7, this younger member of it brought a letter of introduction to him, thence the acquaintance, the sequel after a long delay, consequent upon the mooted question of country and residence was the transfer of one of the daughters of the Genesee, from her native Valley to the courts and diplomatic circles of one of the far off capitols of the old world.

The marriage took place in Edinburgh about one year ago. After a wedding tour to London, where the American wife of a favorite of the Queen was received by her with marked attention, the newly married couple sailed for Egypt. Strongly attached to her own country, to her parental home—the beautiful Village of which her honored father was the founder—fondly anticipating a return to it, at least for a brief season with the relations of another added to those of a wife with all that could bind her to earth, the saddening news comes from afar over wide waters that she is no more! With a cultivated mind endowed with the best attributes of her sex, amiable in all her domestic and social relations—she was an idol of her family circle and beyond it wherever she had made acquaintance there will be tears of friendship mingled with those of kindred.

### Fun in Broadway.

The "oldest inhabitant" scarcely recollects the time when there was such fine sleighing in New York. Broadway is as gay as a Carnival and as crowded as a Fourth of July. The whole city is on runners and the jingling of bells fills the whole day and more than half the night. All sorts of vehicles, all sorts of teams, all sorts of fur caps, hoods and bonnets go dashing by at a rate that makes one giddy to look at. The white marble roof of the skies has been softly let down for the pavement of the streets and the world above and below is as bright and clean and pure as crystal.

But there is one drawback. Jack Frost reigns supreme and merciless and will bite your fingers and nose off unless you don the Hyperborean armor. The writer hereof, in order to be in the fashion took a turn out of town night before last as far as Woodlawn and returned with the tears frozen upon his eyelids, and with a painful conviction of the force of Franklin's definition of sleigh-riding—'Putting one's feet in ice water and gingling a string of bells.'

To-day the thermometer has an upward tendency, and the victims of pleasure suffer less.—But for one we have had enough of the fun and although it is an old Latin maxim 'Ride si sapis,' yet we decidedly prefer to walk and see the fun go by—the huge sleighs drawn by from four to twenty-four horses—piled up with a miscellaneous mass of men, women children and nurses. There goes the 'General Taylor' with ten horses—the 'General Scott' with twelve—'Kossuth' with twenty, and 'Lola Montez' with twenty four. Here comes a team of twelve ponies about the size of Newfoundland dogs dragging a sleigh full of merry circus men and there goes a nice turn-out, six horses with white and red plumes, an African driver with half a dozen rollicking Cyprians for freight. What dashing, screaming and steaming times to be sure!

The festival in honor of Kossuth came off at 5 P M in the Mansion Hall, which was filled to overflowing. A W Loomis formerly M C presided and several distinguished politicians of both parties Mayor Guthrie several Clergymen, and other leading men were Vice Presidents.

As Kossuth came upon the stage the whole audience remained in respectful silence which was maintained until his introduction to the meeting when an overwhelming burst of applause followed and the Capital Band struck up the Marseilles Hymn. Order being restored Mr Loomis delivered an elegant and appropriate address very decided in its tone, and hearty in its endorsements of Kossuth's cause and policy. It was frequently applauded. Kossuth responded speaking of the great hopes he entertained for the success of his mission in the West. He referred fully in his speech to the opposition shown him by some Catholics which he could in no way account for.

St Louis Jan 26

A Kossuth meeting was held at the Rotunda of the Court House on Saturday which was numerously attended. Mayor Kennet presided.—Several resolutions were adopted inviting Kossuth to visit St Louis as the guest of the city—a committee of 50 was appointed to make necessary arrangements for his reception.

The following additional items of European news have been received at Boston.

This would imply that the foreign relations of the country are not in the satisfactory state which is to be desired.—Indeed active preparations are in progress."

The fugitive slave law was declared to be a failure and slave holders have acknowledged that it did not come up to their expectations. The receipts during the year have been about $7000 expenses about $65000.

☞ IN CONSUMPTIVE SYMPTOMS, Procrastination is the thief of time, in an awful sense, as it shortens existence, and hurries the patient from time to eternity.

Thousands are dying whose lives might be saved by the timely use of WISTAR'S BALSAM OF WILD CHERRY. A few weeks, a few days, may make a fatal difference in the progress of CONSUMPTIVE SYMPTOMS.

The chances of success increase greatly with the early ness of treatment. Although in cases, seemingly desperate, Wistar's Balsam has performed cures that are seemingly miraculous, still it is advisable to take the Balsam on the appearance of the first symptoms.

CONSUMPTION, of all diseases, is the one that should receive early treatment. Every hour of delay may make the case more difficult. In the war between Disease and Nature, the sooner we assist Nature, the more certainly will she win the victory. If we wait until Disease has broken the constitution our aid may come too late for service.

### THE NEW-YORK TRIBUNE,

Daily, Semi-Weekly and Weekly

THE year 1852 commences with events of more than usual importance and it is certain that other events, equally momentous, will arise ere its duration

The proceedings of Congress, its discussion and action upon the great questions of our Foreign Policy, the Tariff, the extension of our lines of steamers to the Sandwich Islands Asia and Africa the opening of a Railroad to the Pacific States and Territories, &c, will be watched with the deepest interest

The Presidential Election takes place this year The movements of the great parties the Conventions, the nominations and the canvass, will engage to an unusual degree the attention and the feelings of the country

The arts and hospitalities of the Hungarian Leader and Exile and the approaching possible outbreak of a mighty conflict in which all the nations of the European Continent will be involved either on the side of despotism or of liberty are subjects of constant and fervent interest

The movements preliminary to this great conflict the intrigues of Russian diplomacy the designs of Austria the present French Revolutions, the outrages of Italian rulers, &c and outside the Ocean, Mexican Insurrections, California Gold Discoveries, South American Civil Wars, will add to the general sum of important events which will distinguish the year 1852

All who desire to be promptly, thoroughly and reliably informed of these matters will find their wishes met in THE NEW YORK TRIBUNE Its arrangements for procuring early and accurate information are not surpassed either in extent or perfection by those of any journal in the world and its readers may be assured that no expense or exertion will be spared to maintain and to increase its present completeness and value as a newspaper

In addition to the above named features, we shall regularly publish the Letters of BAYARD TAYLOR, one of the Editors of The Tribune, who is now exploring the unknown and mysterious regions of Central Africa, and before his return will visit the famous Oriental cities of Damascus and Bagdad and examine the ruins of ancient Nineveh

### THE GREAT BRITISH QUARTERLIES, AND BLACKWOOD'S MAGAZINE.

Important Reduction in the rates of Postage'

LEONARD SCOTT & CO, No 54 Gold st, New York, continue to publish the following British Periodicals, viz

THE LONDON QUARTERLY REVIEW, (Conservative)

THE EDINBURGH REVIEW (Whig)

THE NORTH BRITISH REVIEW (Free Church)

THE WESTMINSTER REVIEW (Liberal)

AND

BLACKWOOD'S EDINBURGH MAGAZINE (Tory)

The Reprints have now been in successful operation in this country for TWENTY YEARS, and their circulation is constantly on the increase notwithstanding the competition they encounter from American periodicals of a similar class and from numerous Eclectics and Magazines made up of selections from foreign periodicals This fact shows clearly the high estimation in which they are held by the intelligent reading public and affords a guarantee that they are established on a firm basis, and will be continued without interruption

Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects It is their *literary* character which gives them their chief value, and in that they stand confessedly far above all other journals of their class *Blackwood*, still under the masterly guidance of Christopher North maintains its ancient celebrity, and is, at this time unusually attractive from the serial works of Bulwer and other literary notables written for that magazine and first appearing in its columns both in Great Britain and in the United States Such works as "The Caxtons, and "My New Novel (both by Bulwer) "My Peninsular Medal "The Green Hand and other serials, of which numerous rival editions are issued by the leading publishers in this country have to be reprinted by those publishers from the pages of Blackwood, after it has been issued by Messrs Scott & Co so that subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these fascinating tales

## PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851 by J S HOUGHTON, M D, in the clerk's office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S

GREAT DYSPEPSIA CURER!

PEPSIN

THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE

PREPARED from Rennet or the fourth Stomach of the Ox, after directions of Baron Liebig the great Physiological Chemist, by J S Houghton, M D, Philadelphia, Pa

This is a truly wonderful remedy for Indigestion Dyspepsia Jaundice Liver Complaint, Constipation, and Debility, Curing after Nature's own method by Nature's own Agent the Gastric Juice

☞ Half a teaspoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours out of the stomach

Pepsin is the chief element or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving, and Stimulating Agent of the Stomach and Intestines It is extracted from the Digestive Stomach of the Ox thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed just as they would be by a healthy stomach It is doing wonders for Dyspeptics, curing cases of Debility Emaciation, Nervous Decline, and Dyspeptic Consumption supposed to be on the verge of the grave The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry says "An Artificial Digestive Fluid analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf in which various articles of food, as meat and eggs, will be softened, changed, and digested just in the same manner as they would be in the human stomach"

Dr Pereira in his famous treatise on "Food and Diet," published by Fowler & Wells New York, page 35, states the same great fact, and describes the method of preparation There are few higher authorities than Dr Pereira

Dr Combe in his valuable writings on the "Physiology of Digestion" observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia" and he states that "a distinguished professor of medicine in London who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful"

Dr Graham author of the famous works on "Vegetable Diet," says "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water impart to the fluid the property of dissolving various articles of food and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process"

Professor Dunglison of the Jefferson College, Philadelphia in his great work on Human Physiology devotes more than fifty pages to an examination of this subject—His experiments with Dr Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals are well known "In all cases, he says, digestion occurred as perfectly in the artificial as in the natural digestions"

Dr John W Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry" page 386 says "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be"

Dr Carpenter's standard work on Physiology which is in the library of every Physician and is used as a Text Book in all the Colleges, is full of evidence similar to the above respecting the remarkable Digestive power of Pepsin and the fact that it may be readily separated from the stomach of the calf or ox and used for experiments in Artificial Digestion or as a remedy for diseases of the Stomach, and deficient secretion of Gastric Juice

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries describe the character and properties of Pepsin, and state many interesting details respecting it

The fact that an Artificial Digestive Fluid or Gastric Juice, perfectly resembling the natural fluid may be readily prepared does not admit of question The only wonder is that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind!

AS A DYSPEPSIA CURER,

Dr Houghton's PEPSIN has produced the most marvellous effects in curing cases of Debility, Emaciation, Nervous Decline and Dyspeptic Consumption It is impossible to give the details of cases in the limits of this advertisement but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia New York and Boston alone These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint Fever and Ague or badly treated Fever and Ague and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness Also for excess in eating and the too free use of ardent spirits It almost reconciles Health with Intemperance

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once No matter how bad they may be it gives Instant Relief A single dose removes all the unpleasant symptoms, and it only needs to be repeated for a short time to make these good effects permanent Purity of Blood and Vigor of Body follow at once It is particularly excellent in case of Nausea Vomiting Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide &c

Dr Houghton's Pepsin is sold by nearly all the dealers in fine Drugs and Popular Medicines, throughout the United States It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians

Private Circulars for the use of Physicians may be obtained of Dr Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice Price One Dollar per bottle

☞ OBSERVE THIS.—Every bottle of the genuine PEPSIN bears the written signature of J S HOUGHTON, M.D., sole proprietor, Philadelphia, Pa Copyright and Trade Mark secured

☞ Sold by all Druggists and Dealers in Medicine

## BALSAM OF WILD CHERRY,

THE BEST REMEDY EVER KNOWN

FOR MAN for Coughs, Asthma Colds, Croup Bronchitis, Influenza Bleeding of the Lungs Difficulty of Breath Liver Affection Pain or Weakness of the Breast or Side, First Stages of Consumption &c

In short this Balsam is peculiarly adapted to every disease of the Lungs and Liver which is produced in our ever varying climate

WILD CHERRY has long been known to possess important medicinal properties This fact is familiar to every one in common and many physicians often prescribe it in different forms for a variety of complaints Tar, also, has been equally esteemed for its virtues, and some physicians, who enjoy some popularity throughout the whole country, have gone so far as to say that even CONSUMPTION could be cured by it In other hands, again it was nearly valueless, owing, no doubt to their ignorance in preparing and administering it —a difficulty now entirely obviated by patient and constant and long experience

The extraordinary medicinal powers of these two substances are now for the first time combined and embodied in DR WISTAR'S BALSAM OF WILD CHERRY By a most [illegible] process [illegible] which are objectionable or useless are [illegible] so that its [illegible] is the most extraordinary and [illegible] remedy for all kinds of pulmonary and liver diseases ever known to man To convince all unbelievers that our theory is really true, we refer to a few cases of cures performed by this wonderful medicine

PLEASANT RIDGE, Hamilton Co, O

September 27, 1850

J D Park Dear Sir —I take the liberty of addressing you of the [illegible] I have derived from the use of Dr Wistar's Balsam of Wild Cherry I was prostrated by that terrible scourge Consumption in May last The attack was truly horrifying to me for five of our family, (brothers and sister) had died of Consumption I was afflicted with nearly all the worst features of the disease I had a distressed cough and expectorated a great deal of blood, hectic fever, severe pains in the side and chest cold chills alternating with flushes of heat and copious night sweats

I was under the care of a skillful physician, from the time I was taken sick until about six weeks since, being then about [illegible] a hopeless [illegible] apparently beyond our Physician's skill, and advised the use of Wistar's Balsam of Wild Cherry Without my knowledge my father procured it and I commenced taking it, much to my [illegible] from the first day I commenced taking it, my health improved and in two weeks from the time I commenced using it I was able to be out and oversee my business, and labor which I still continue to do I have taken four bottles of the medicine, and now consider myself perfectly well JEREMIAH ISGRIGG

Another astonishing Cure!

[illegible] a highly respectable merchant of Rushville [illegible] the following voluntary tribute

TO WISTAR'S BALSAM OF WILD CHERRY

Rushville Fairfield Co O April 6, 1851

Mr J D Park —Dear Sir —I wish to state to you that my daughter, Miranda aged sixteen years, had, about a year since, a very severe attack of measles, which reduced her very much, and left her with a racking cough I employed all of the physicians, within our reach for the purpose of removing her cough, but without success She appeared to be sinking into a decline with every symptom of consumption

I then tried Dr Rogers Liverwort and Tar But this aggravated her cough and gave her symptoms of a still more malignant character I was now most seriously alarmed and it was with trembling fear that I from day to day saw the progress of that insatiable disease consumption I really despaired of my daughter's recovery But I providentially saw the certificate of Jonathan Coulson whose daughter, "Sarah Jane" was cured of consumption by Wistar's Balsam of Wild Cherry this created a faint hope that it might help my daughter, and I immediately commenced using it and it almost instantly gave relief, her health was improved from the first bottle and by the use of two bottles of Wistar's Balsam of Wild Cherry, she was restored to perfect health and she is not actually predisposed to a cough

I will say to all that are afflicted with any disease tending to consumption *do not despair* for Dr Wistar's Balsam of Wild Cherry will cure you if you will but try it

**DOUBLE OVEN COOKING STOVE,**

*(Which received the First Premium at the State Fair lately held at Janesville)*

Possesses great advantages over every other stove for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use and with half the fuel, not consuming over four cords of wood in one year

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction

The PREMIUM is different in its construction from any other made in the arrangement of the fire back—acknowledged to be a great improvement

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the conveniences of the stove combined with the beauties of the open grate. It is beautifully ornamented, highly finished and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors

The RADIATOR, the best coal stove ever got up as a stove of heat

Persons purchasing their stoves of us in the event of any of the plates getting broke can at all times be supplied with extra ones, thus superseding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware

Those who are in want of any articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. **Troy Fire Insurance Company,**

TROY, WALWORTH COUNTY, WIS

**CAPITAL $100,000.**

The Directors feel grateful to the public for having thus far manifested their approval of and confidence in this Company. After having been in operation ten months, we are able to report as follows

| | |
|---|---|
| Whole number of Policies issued | 950 |
| Whole amount of Property insured, | $600,651 60 |
| Whole amount of Cash premium, | 5214 37 |
| Whole amount of losses allowed and paid, | 3 1 2[illegible] |
| Balance of Cash Premium on hand | 4943 10 |

IT is gratifying to the Directors to state to the members of this Company that the business has more than met their expectations and is rapidly increasing. This unparalleled success in the commencement, and increase of business, shows that our plan and management meets with the approval of the public

The Charter and Bye Laws are free from objections, and provide that the risks shall be divided into two distinct departments, and the premium notes in one shall not be liable for losses in the other. The only risks taken in the Farmer's Department are on farm property, detached dwellings, country churches, school houses, tailors, shoemakers, and saddlers shops. No hazardous risks will be taken in either department, nor more than $2000 in one risk, or in a circle of eight rods

The company possess both the advantages of the Stock and Mutual plan. Any person insuring may pay one-tenth, one half the regular cash premium in full, without a premium note. Stoves may be added or changed, out buildings erected at fifty feet from dwelling, and such additions and alterations made as do not increase the hazard without notifying the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance may take effect on the day the application is made. The Company pays, in case of fire, the full amount of damage not exceeding the amount insured and all matters of difference may be settled by arbitration in the county where the loss occurs

The rates charged by this company though low are based upon the actual result of insuring for the past twenty years, and are found to be sufficient, with prudent management, to pay all losses and expenses without ever resorting to the premium notes. Thus the rates on exposed dwellings and farm property are a premium note of one per cent, and a cash premium of fifty cents on each $100 for five years

In publishing our safe, cheap, and popular plan of Insurance we deem it a duty to ourselves and the public to state a few existing facts with the Washington and Montgomery —

The Washington County Mutual commenced in 1836 by collecting thirty cents on $100. In 1845 they first discovered that this was insufficient to pay losses and raised to 33 cents, and now are collecting 50 cents on each $100. In report of which is, by their report, Jan 1 1850, $9000 in the treasury, a loss million at risk on which they will probably lose two hundred thousand, making their actual debt 191 thousand

The Montgomery County Mutual is another example of bad management. They have been in operation a little longer than the Washington, and their report shows what the Washington is coming to. They reported to the Comptroller Jan 1 1850, that their losses and cash expenses had exceeded their cash receipts twenty nine thousand dollars, and fifteen thousand dollars claims unsettled, making debts and claims forty four thousand dollars, and some thirty millions at risk on which they will probably lose ninety thousand dollars more, making their actual debt one hundred and thirty four thousand dollars

The cash premiums now collected by these two companies on what they insure in future will only pay losses of the same consequently those insuring with them now not only pay for their insurance but assume a portion of these enormous debts which must be raised by tax. These companies are unpopular in New York, and are compelled to wander in the Valley of the Mississippi where they are not so well known for business. Arch Bishop and Lester Wilcox are publishing as heretofore their firm belief that no tax will ever be necessary, but the figures are the things to judge from

Since the above report the Montgomery have levied a tax on their premium notes

Now we would ask the public candidly which of these three companies it is to their interest to insure in—the Washington and assume a debt of $191,000, the Montgomery, and assume a debt of $134,000, or of the Troy, with an increasing cash fund sufficient to pay all losses and expenses without ever resorting to a tax

## STATE FAIR.

CRANE'S PATENT SOAP took the FIRST PREMIUM at the STATE FAIR at Janesville, also at the State Fair of the State of New York, and at the Great Fair of the AMERICAN INSTITUTE. Of course it did, because it is the BEST SOAP IN USE. If any are still skeptical let them read the following—the names to which might be indefinitely extended—and then try it for themselves, and if it don't succeed they don't follow the directions —

We have used CRANE'S PATENT SOAP in our families for the past eight months, and pronounce it FULLY EQUAL to its recommendations. We do not discover that it injures cloth in the least. It is the cheapest soap in use. We should not willingly do without it

From the best of evidence in our possession, from Physicians, of the best standing who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure in some cases where no other known remedy will do it. This it has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness, where the most eminent medical treatment had failed! For inflammatory Rheumatism, Burns, Freezes, Ulcerated sores, Scald head, or for relief from a sudden stoppage of the pores of the skin by colds or fevers, a thorough trial will establish its claims to the confidence of the public. **BITTERS,**

Prepared by Doct. C M Jackson,

AT THE GERMAN MEDICINE STORE,

120 Arch st., Philadelphia

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest in many cases after skillful physicians had failed

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant

READ AND BE CONVINCED

[From the Boston Bee ]

The Editor said Dec 22d "Dr Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deserved by one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety under any circumstances. We are speaking from experience, and to the afflicted we advise their use"

SCOTT'S WEEKLY

One of the best literary papers published, said, August 25

"DR HOOFLAND'S GERMAN BITTERS, manufactured by Dr Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find those Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems

The Daily Sun says —"It is one of the best medicines of the age for Jaundice and Liver Complaint"

Neal's Gazette says —"Dr Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser"

The Evening Bulletin says —"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints"

The Daily News, July 21, says — A Medicine —We speak knowingly of Dr Hoofland's celebrated German Bitters, when we say it is a blessing of this age and in diseases of the biliary, digestive and nervous systems it has not, we think, an equal. It is a vegetable preparation, and made without alcohol and to all invalids we should recommend it as worthy of their confidence"

The Dispatch says — As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time

*To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually*

SCURF OR DANDRUFF

**Prepared only by S JOHNSON, 151 E Water-st**

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c, which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so, will positively change the harshest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the latest period of life

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moist with the Invigorator can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair Nov 24 2m

We would respectfully call the attention of our many friends and the public generally, to an instrument we have recently imported from Paris, called a

**"Conformateur,"**

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away, as the Hats are made to fit perfectly the first time

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country

We invite all who desire a perfect fit in a Hat to call and leave an impression of their head, and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $125, surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers we do so, with the confident assurance they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
